

WHAT'S "QUACKING" IN THE DUCKLING CLASS FOR MARCH

Letters of the Month

Rr, Dd, Pp, Bb

We will continue introducing the letters using the Handwriting Without Tears Method. The children will continue to work on the workbook pages and make doorknob hangers to bring home.

Nursery Rhyme of The Month

"Little Boy Blue"

Shape of the Month

Rectangle

St. Patrick's Day

On the day your child celebrates St. Patrick's Day at school we ask you to dress him or her in something green! Sometime during the day, the silly Leprechaun will sneak into the classroom while the children are out of the room, where he will do a little "harmless mischief" (put the books upside down, put the trash can on the table, leave a mess of toys on the carpet, etc.). The leprechaun will "run" out of the classroom and leave his green footprints in the hallway for the class to follow. The footprints will lead the children to a "pot" filled with a surprise! I wonder what it will be??

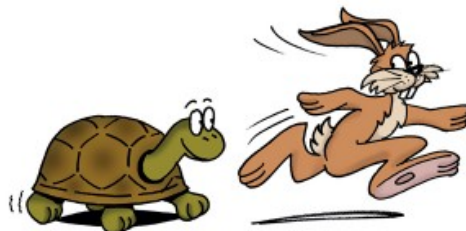

New Word of the Month

Haystack: A large, packed pile of hay, usually built in the open

Story of the Month

"The Tortoise and the Hare"

Introducing Our Animal Unit

During the month of March each week the children will be introduced to a different type of animal.

Jungle Animals

Farm Animals

Forest Animals

Pets

Goals for Our Animal Unit

- Can you describe a jungle?
- Can you name three animals and their babies names? (horse/foal, cow/calf, pig/piglet, sheep/lamb, etc.)
- Can you tell me what hibernation and migration mean?
- Can you name 3 different types of pets?
